Expected Graduation: **Oct 2028** | Available for Internship: **May/June/July 2027 (13+ weeks)**

EDUCATION

- Faculty of Electronic Engineering, Menoufia University** Oct 2023 – Present
B.Sc. Electrical, Electronics, and Communications Engineering *Egypt*
- Relevant Coursework: **Data Structures & Algorithms**, Digital Logic, **Computer Networks**, Linear Algebra, Probability & Statistics
- SEF Academy** Nov 2025 – Sep 2026
Full-Stack Web Development Program *Remote*
- Completed front-end, back-end, and full-stack tracks scoring 98.92%, 98.78%, and 98.85% respectively

EXPERIENCE

- Back-End Web Development Trainee** Aug 2026 – Sep 2026
SEF Academy Back-End Training *Remote*
- Collaborated with a development team to build a production-style e-commerce REST API using **Node.js**, **Express.js**, **MongoDB**, **Mongoose**, and **Redis**, applying data structures and algorithmic thinking to design efficient, paginated endpoints
 - Owned the core authentication flow, implementing **JWT access/refresh tokens**, **HTTP-only cookies**, **OTP email verification**, **request validation**, and **role-based authorization**; added **Redis caching** to reduce repeated database queries
 - Contributed to a documented API with 40+ operations covering auth, products, carts, wishlists, orders, users, and admin analytics; integrated **Cloudinary**, **Stripe**, **PayPal**, and **Paymob** (incl. webhooks); used **Docker** to automate local dev/testing workflows, collaborating via **Git/GitHub** with code review
- Front-End Web Development Trainee** Jul 2026 – Aug 2026
SEF Academy Front-End Training *Remote*
- Collaborated in a team-based environment to build a production-style e-commerce platform using **React 19**, **Vite**, **TypeScript**, **Tailwind CSS**, **TanStack Query**, and **Turborepo**
 - Contributed to the customer storefront and admin dashboard, applying CS fundamentals from coursework to real-world UI/state-management problems while coordinating with teammates across a shared, review-driven codebase

PROJECTS

- E-Commerce API** Aug 2026 – Sep 2026
Node.js, Express.js, MongoDB, Redis, Cloudinary, Stripe/PayPal/Paymob
- Collaboratively developed a modular REST API with 40+ documented operations for auth, catalogs, search, carts, wishlists, orders, reviews, and admin analytics
 - Implemented JWT auth, OTP verification, session management, role-based authorization, request validation, rate limiting, and security middleware; added Redis caching, Docker support, and interactive API docs
- E-Commerce Platform (Monorepo)** Jul 2026 – Aug 2026
React 19, Vite, Tailwind CSS, TanStack Query, Turborepo
- Built a scalable Turborepo monorepo with customer and admin apps plus shared UI, API, and utility packages
 - Implemented authentication, product/category management, cart functionality, and Stripe checkout using reusable architecture

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, TypeScript (*learning Go, Rust*)
Front-End: React 19, Next.js 16, Vite, Tailwind CSS, Redux Toolkit, RTK Query, TanStack Query/Form
Back-End: Node.js, Express.js, MongoDB, Mongoose, REST APIs, JWT, Redis
CS Foundations: Data Structures & Algorithms, Computer Networks, Digital Logic
Tools: Git, GitHub, npm Workspaces, Docker, Unix/Linux, Turborepo, Vercel, Vitest
Integrations: Stripe, PayPal, Paymob, Cloudinary, EmailJS
Familiar With: Python, C++, Bun, Nest.js, SQL, Prisma, Zod
